

My students love dancing under  
a constantly lowered barrier bending  
backwards while cautiously maintaining  
their equilibrium. Sometimes they set  
up the dancing equipment incorrectly.

My students often read carefully selected books. Sometimes they read alone, in pairs or in small groups. Many read absorbedly, not paying attention to the noisily distracting activities of others. Reading separately, in seclusion, hidden from others is the most preferred way of reading for some. Page 10

She plays the maracas  
softly, rhythmically, enthusiastically  
and happily.

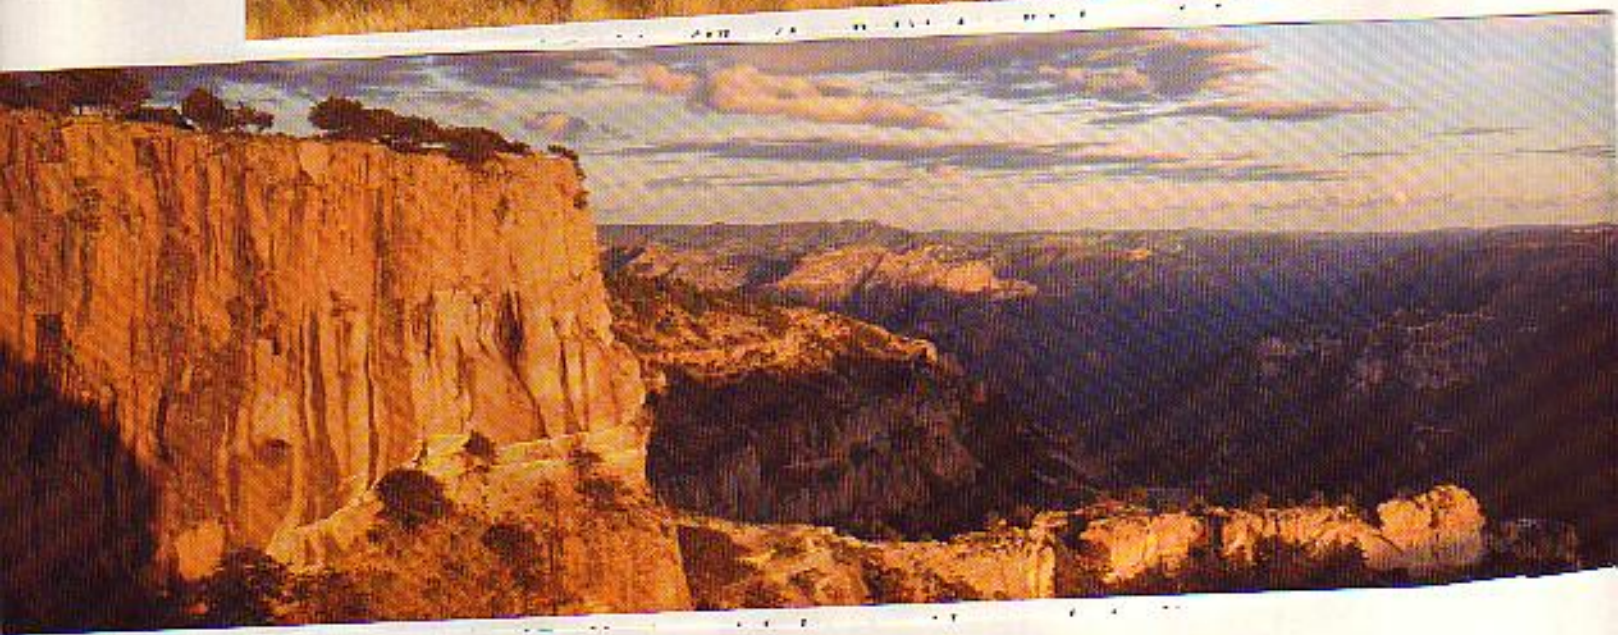

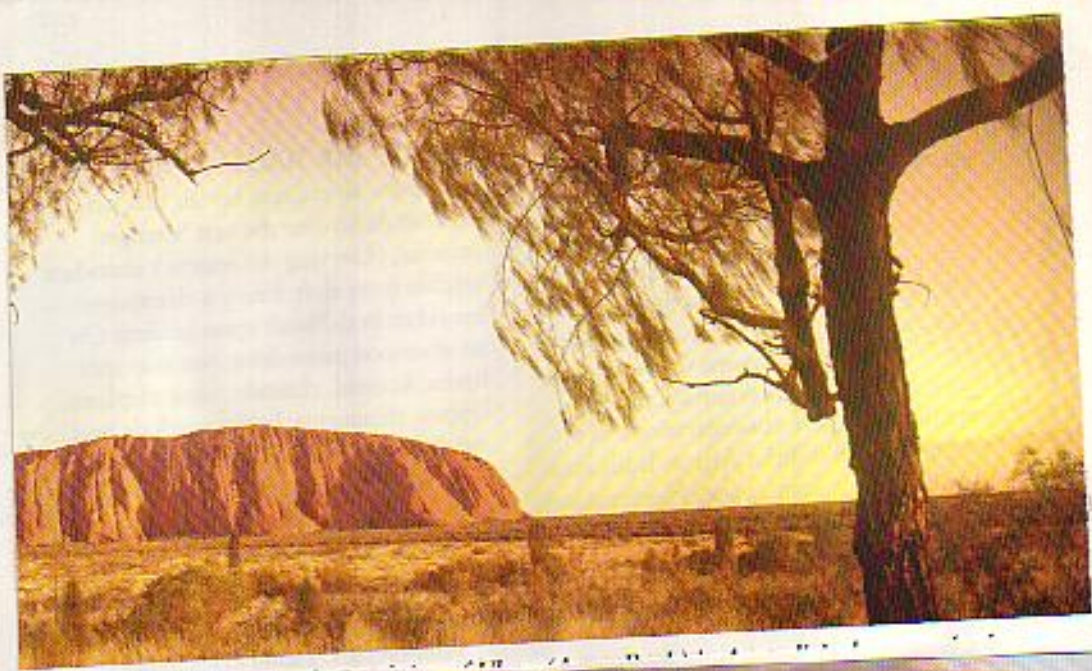

Who can ever wear ethnically  
colorful attires without feeling  
profoundly proud?

Not unlike humans, frogs hold on  
Carefully to their means of support.

Carefully observing their surroundings is a primarily human activity.

Evidently, the cliffs rise  
abruptly from the valleys.

This is easily observable in  
these brilliantly colorful pictures.

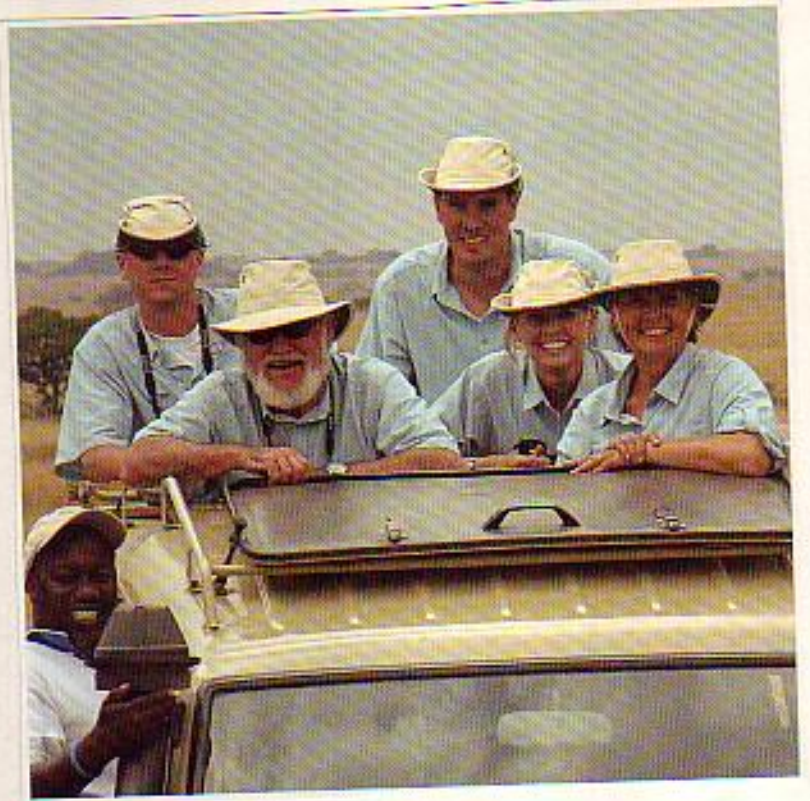

The ladies gathered lovely  
fragrant lavender flowers and  
deliciously tasting red apples.

Affectionately and tenderly  
hugging one another, these couples  
are trying to preserve the most  
memorable occasions of their trips.

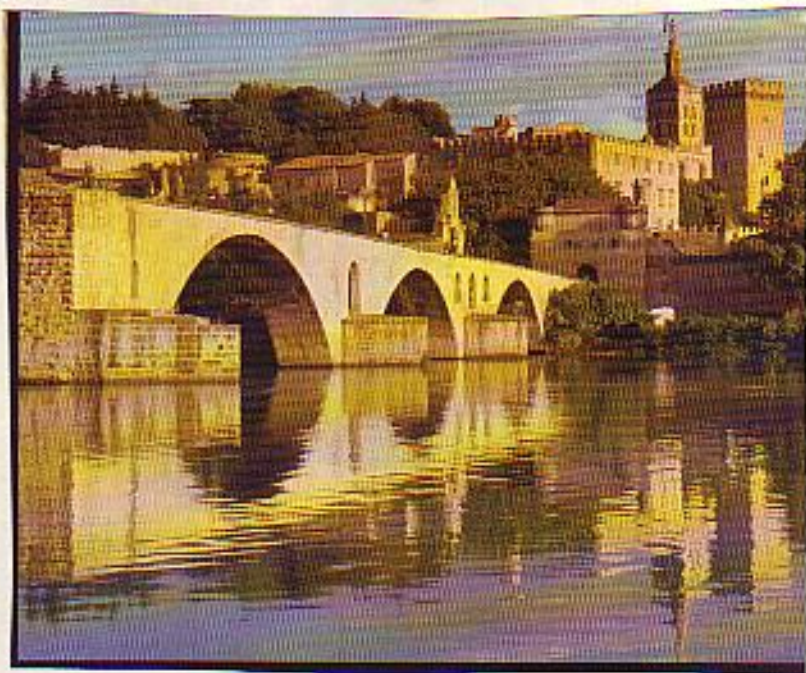

Seeking a revitalizingly refreshing  
shade, these friends, under  
unbelievably large leaves, pose  
for a picture.

No matter how or where you travel,  
it is really convenient to go with  
an exceptionally knowledgeable guide.

Definitely, the reflections on  
the water echo with perfectly  
symmetric exactness the geometric  
shapes of the very ancient bridge,  
do you agree?
